Welcome to the Registrar Stakeholder Group Website

The Registrar Stakeholder Group is one of several Stakeholder Groups within the ICANN community and is the representative body of registrars. It is a diverse and active group that works to ensure the interests of registrars and their customers are effectively advanced. We invite you to learn more about accredited domain name registrars and the important roles they fill in the domain name system.

Among other functions, this website allows you to meet the [staff](#) and current [members](#), prepare for upcoming [events](#), view past [ballots](#), and signup for the [mailing list](#) or [become a member](#). Get involved and make a difference!

Statement from the current Chairman, Mason Cole

On behalf of our members, representing domain name registrars and their customers around the world, thank you for visiting the Registrar Stakeholder Group's web site.

Since the formation of ICANN, the Registrar Stakeholder Group has been the voice and advocacy organization for registrars and their customers and has played a very active role in policy development and other ICANN processes.

If you're a newly-accredited registrar, or even if you've been a registrar for some time but are not a Stakeholder Group member, I encourage you to read more about our work and consider joining. By becoming a member of the Registrar Stakeholder Group, you will have the opportunity to communicate with your registrar peers, participate in the ICANN process, and vote on issues important to the registrar community.

If you're already a member of our group, I hope you'll use this web site as a tool to stay informed about matters of concern to registrars and to contribute your energy

and ideas to our efforts.

Should you have any questions about the Stakeholder Group or its work, please contact me or any other Stakeholder Group officer.
