

JPIRR Status Report

Kuniaki KONDO

JPNIC IRR planning team/
INTEC NetCore Inc.

What is JPIRR?

- ◆ IRR planning team had tried to research widespread IRR environment.
- ◆ Through its activities:
 - Our member proposed a new IRR mirroring policy and mirroring topology.
 - We have searched a new authorization mechanism using IRR.
- ◆ JPIRR service is one of testbed for these activities.

JPIRR Operation Policy

- ◆ Experimental Service
- ◆ Operated by JPIRR planning team
- ◆ Service schedule:
 - 23 Aug. 2002 ~ 31 Mar. 2003
- ◆ For whom:
 - Registration service: JPNIC IP Member
 - Mirroring service: JPNIC IP Member
 - Searching service: Anyone

Current Status(1)

- ◆ Number of total object: 17
 - maintainer object: 7
 - aut-num object: 3
 - route object: 5
 - as-set object: 2
 - (4 September 2002 present)
- ◆ Number of total access from the beginning
 - 867 (4 September 2002 present)
 - ◆ Including mirror access

Current Status(2)

- ◆ Number of total Web Access: 998
- ◆ Number of mirror site: 1
 - APIRR

- ◆ Number of total operators: 3
(Me, Kengo Nagahashi, Tomoya Yoshida)
 - Number of powerful operators: 1
(Mr. Yoshida)

Problems

- ◆ Lack of number of operators.
- ◆ Lack of registered objects.
 - We have to encourage our service.
- ◆ JPIRR cannot mirror with APIRR well.
 - It means that we could not do our ideal operation which had proposed past APNIC meetings.
 - Currently, other IRR's data such as RADB data have received through APIRR.

JPIRR information

◆ Web page:

- <http://jpirr.nic.ad.jp/>
- English “operation policy and user guideline” document is available.

◆ Contact:

- question@jpirr.nic.ad.jp
- If you send e-mail, Yoshida-san might answer😊

Thank you
